#### **CRITERION I – CURRICULAR ASPECTS**

## 1.1 - Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The Institution has in place an Outcome Based Education (OBE) process. The faculty after going through the syllabus work on to establish the gap existing between the Semester End Evaluation (SEE) system as practised by the university to which our institution has been affiliated and the attributes required to meet the expectations of the industry. The gap analysis involves identifying the gap in content to which every student is expected to learn and exhibit to use the prowess so learnt to meet the requirements of the industry. The Curriculum delivery is planned and delivered to attain the Program Outcomes (POs) identified by each of the programs/departments aligned with POs as specified by NBA. Further the content to be delivered is designed to address attainment of Program Specific Outcomes (PSOs) detailed by the departments. The POs and PSOs for each of the departments have been uploaded on our website. A well designed evaluation system involving assignments, tutorials, internal assessment test (continuous evaluation) have been in place. In certain specific subjects, session end evaluation (Quizzes, multiple choice questions ...) have also been designed. A professional approach to preparing session plans for delivery and consumptions is being prepared to be implemented during the ensuing academic year 2019-20. The faculty work on Plan-DeliverCheck/evaluation-Act (PDCA) for continuously improving the process.

#### 1.4 - Feedback System

#### 1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

## Feedback Obtained

At Annamacharya Institute of Technology and Sciences - Hyderabad, the Department of Humanities and Sciences adopted feedback systems by conduction Interactive Interpersonal Feedback, such like the interviews, anonymity in feedback allowed students to disclose authentic feelings, to openly report difficulties or problems, and to provide negative but constructive suggestions concerning teaching materials and classroom activities. In contrast, withthe traditional methods, students hesitated to give negative feedback for two reasons. First, from concerns about possible influence on their grades, not wanting to put the teacher off side, and second, for the sake of their selfesteem, not wishing to openly admit to finding the material challenging. Explanations for such behavior are evident in the interview transcripts. These extracts show that students are sensitive to issues of power in their educational environment, leading to a certain level of guardedness in non-anonymous feedback scenarios. Obviously, more honest feedback is of greater use

for teachers in allowing them to better assess student needs and adjust teaching or materials accordingly. Hence, the anonymity that digital technological tools can provide ultimately leads to empowerment of student opinion and input. Feedback collection through pen-and-paper questionnaires and oral question-and-answer reports was conducted at the end of the lesson, and could only be used for following lessons. Real-time feedback provided by the digital technological tools enabled teachers to respond and adjust teaching content immediately according to students' needs or preferences

#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Students mentoring system is implemented in Annamacharya Institute of Technology and Sciences- Hyderabad Mentoring is a system of semi-structured guidance whereby one person shares their knowledge, skills and experience to assist others to progress in their own lives and careers. Mentors need to be readily accessible and prepared to offer help as the need arises - within agreed bounds. Mentors very often have their own mentors, and in turn their mentees might wish to 'put something back' and become mentors themselves - its a chain for 'passing on' good practice so that the benefits can be widely spread. Mentoring can be a short-term arrangement until the original reason for the partnership is fulfilled (or ceases), or it can last many years.

Mentoring is more than 'giving advice', or passing on what your experience was in a particular area or situation. Its about motivating and empowering the other person to identify their own issues and goals, and helping them to find ways of resolving or reaching them - not by doing it for them, or expecting them to 'do it the way I did it', but by understanding and respecting different ways of working. Mentoring is not counselling or therapy - though the mentor may help the mentee to access more specialised avenues of help if it becomes apparent that this would be the best way forward. As mentee Being able to change/achieve goals more quickly and effectively than working alone. Building a network of expertise to draw on can benefit both self and others. As mentor, Mentoring is voluntary but extremely rewarding, and can benefit your own skills development and career progression

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

## 2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Institute affiliated to JNTUH, Hyderabad university and follows university academic calendar. Before commencement of every semester, Dean Academic Planning and Dean Academics prepare institute Academic calendar clearly indicating curricular co-curricular and extracurricular activities planned by individual department. The commencement and end of semester, mid-term internal examinations and 2-weeks for practical exams are strictly followed according to the dates proposed by university academic calendar. University allots 2 weeks for mid-term internal examinations 2-weeks for practical examinations. All the HOD?s prepare their department academic calendar in accordance with institute academic calendar. Various activities like guest lectures, industrial visit, seminars/workshops, etc. are incorporated in department academic calendar. Lecture plan according to syllabus is prepared by every faculty before start of the semester which is outcome based learning. It covers course objectives and course outcomes. The lecture plan consists of content mode of teaching, completing of all units with date. The lecture plan covers all the topics and total classes required for completion of subject. Every month, HOD, Dean Academics and Dean Academic Planning collect syllabus coverage from every faculty to monitor the completion of syllabus. If any faculty is lagging with syllabus coverage as per the deadline then extra hours are allocated in time table to cover the syllabus. The Dean Academics and Dean Academic Planning schedules extra lectures on Sundays as holidays to lateral entry students to cover the syllabus due to late admissions. Dean Academic plan has standard procedure of fortnight monitoring that ensures smooth conduction of lectures and practical sessions. Internal examinations are conducted by the Institute according to university academic calendar. Results of internal assessment are declared and communicated to students within a scheduled time. Every department conducts project reviews, technical seminar presentation, and comprehensive viva-voce examinations as per the department academic calendar which adheres university academic calendar. Thus, the institute adheres to academic calendar for conduct of CIE and all other activities during the semester.

## CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT

## 6.1 - Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

At Annamacharya Institute of Technology and Sciences - Hyderabad, The decentralized governance model is evident in every sphere as each department/faculty functions as a separate sub-unit, in deciding and implementing the student-centric programmes and activities. At AITS, the Management is participative and regular meetings are convened amongst the Management members, Principal, faculty and the students in implementing efficient plans. All the departments are requested to present their Annual Action Plan at the beginning of every academic year with a clear cut roadmap to deliver the same. The matters at the department level are discussed by the HOD with the faculty team in consultation with the Principal. This gives the faculty an enormous sense of belonging and pride in the institution and this brings out the best in them. Once a year, a get together meeting between staff and Governing Council members is indeed a moment to cherish, wherein all matters of importance, including the strategic ones are discussed with an equal opportunity for all the staff members to express their constructive suggestions to the council. The meeting of the President with the staff at the beginning of every semester is indeed a reflection of the participative style of the Management

Being an affiliated institute there is no financial support from the state government for the development of the institute. Tuition Fee is the main source of income for the organization. The institute has got adequate financial resources in the form of fee collected from the students to meet effectively the annual maintenance and development expenditures of the college. The Tuition Fee is collected from the students through the administrative department and deposited in a unique bank account. This bank account is made to have a structural transaction in a hierarchical model with the support of the Financial Advisor of the trust. The same is used for the various Administrative and academic expenses. The institution provides additional facilities like transport, food etc. and the respective fee collected are used for the expenses

under appropriate head. Other than the regular fees through the technical skills of the faculty and students various sponsored programmes, testing / consultancy industry assignments and research centre/resource establishment are carried out to strengthen the research infrastructure of the institute. A yearly budget is prepared strategically with the composition of pay allowances, recurring nonrecurring expenses and regular maintenance establishment expenses. This estimated budget is well monitored periodically and the account statement is prepared at the end of the academic year. This annual account statement is duly audited by the chartered accountant.

The safe campus, offers a truly unrivalled study experience with various courses, outstanding facilities, comprehensive support and highly disciplined life. VISION OF AITS "To educate the student community both by theory and practice to fit in with the society and to conquer tomorrow's technology at global level with human values through our dedicated team". MISSION OF AITS "To provide world class education in engineering, technology and management, to foster research development, to encourage creativity and promote innovation, to build leadership, intrapreneurship and entrepreneurship and to nurture teamwork and achieve stakeholders delight". The most significant contribution that an educational institution, especially an engineering college makes is enabling progress in the world through its students. A college with a vision helps progress bloom. The logo unit is a reflection of the same thought. It has a budding flower in bright orange, blooming. In the background is a gearwheel - a tool that's integral to progress and engineering - that's rising and shining. Together, they sit majestically on the word mark of AITS, completing the elements of the logo unit. QUALITYPOLICY: We are committed to provide quality education to students to acquire life skills thus enabling them to achieve academic and professional excellence. We continually motivate all our educators and support service providers for enhancing professional competencies for effective implementation of Quality Management System.
